📁 Portfolio: github.com/Lou-Anthony-Padua

Aspiring Cybersecurity Professional

Aspiring cybersecurity professional with hands-on exposure to log analysis, SIEM tools, and network fundamentals. Committed to continuous learning and protecting digital systems from evolving threats.

Training and Certifications

- Foundations of Cybersecurity – Google

Practical Projects and Labs

- Used Splunk to analyze logs and investigate potential security incidents.
- Performed basic malware checks using VirusTotal and hash comparisons via HashCalc.
- Conducted network scans with Nmap and traffic analysis using Wireshark.
- Identified IP details and geolocation using IPGeolocation.io.

Professional Experience

Accenture | Feb. 2021 – Feb. 2025 (Software Engineer | Role: DevOps Engineer)

- Handled deployments using AutoRABIT, Copado, and Bitbucket.
- Resolved merge conflicts, build errors, and pipeline issues.
- Collaborated with Devs, Testers, and Leads to ensure smooth releases.
- Edited XML files and managed version control with Git, VS Code, and Beyond Compare.
- Suggested process improvements to reduce deployment errors.
- Performed Salesforce admin tasks and maintained multi-env stability.

🔧 Technical Skills

- **Tools:** Git, Bitbucket, VS Code, AutoRABIT, Copado, Beyond Compare
- **DevOps:** CI/CD, Deployment Pipelines, Version Control
- **Security Skills:** Log Analysis, Threat Monitoring, Malware Scanning, Incident Investigation, File Integrity Checking, IP Tracing
- **Security Tools:** Splunk (SIEM), VirusTotal, HashCalc, IP Geolocation
- **Networking:** TCP/IP, DNS, Firewalls, Network Protocols
- **Language:** Python

🎓 Education

Bachelor of Science in Information Technology

Consolatrix College of Toledo City

Graduated: 2017
